# Invitation: Erasmus Staff Training Week at Sonic College

## Sound Design and Audio Engineering Practices

Kolding, Denmark – 18–20 November 2025

Sonic College (UC SYD) invites academic and technical staff from European higher education institutions to participate in an **Erasmus+ Staff Training Week** focusing on *Sound Design and Audio Engineering Practices*.

The three-day programme combines workshops, peer exchange, and structured learning activities within the framework of **Sonic Days 2025** - an international conference on sound, technology, and creativity.

Participants will explore how physical learning spaces, immersive technologies, and innovative pedagogies shape the future of sound design and audio engineering education.

**Dates:** 18–20 November 2025

**Location:** Sonic College, UC SYD – Kolding, Denmark

**Focus areas:**

- Learning environments and sound pedagogy
- Immersive audio workflows (Dolby Atmos, spatial audio)
- Recording and production practices with Morten Lindberg
- Exchange of best practices between European sound design programmes

Participation can be funded through **Erasmus+ Staff Training (STT)**.

Sonic College is open to establishing **new partnership agreements** and will sign **Mobility Agreements** based on this programme for visiting staff.

For information, programme details, or partnership inquiries, please contact:

**Lars Tirsbæk**
