

Erasmus Staff Training Week 2026

Sound Practices and Emerging Technologies

17–19 November 2026 · Sonic College, UC SYD · Kolding, Denmark

Language: English

Sonic College invites academic and technical staff from European higher education institutions to participate in an Erasmus+ Staff Training Week alongside Sonic Days 2026.

The three-day programme combines workshops, peer exchange and structured learning activities, exploring current sound practices and their relevance to teaching and technical work.

Tuesday 17 November

12:30 — Lunch hosted by Sonic College

The afternoon focuses on Immersive Audio Across Media and Live Experiences. Technology partners will present new technologies in a dedicated workshop room, with time for professional discussion and networking. In the evening, participants can experience games, film and music in immersive formats through screenings, concerts and game playthroughs.

Wednesday 18 and Thursday 19 November

Participants select relevant workshops from the Sonic Days programme according to their professional interests. Expected areas include Foley, AI and other aspects of sound production and creative practice.

The detailed programme will be available in early November 2026.

Erasmus Staff Training

Participation is subject to approval by your home institution. Please send your completed Mobility Agreement (Staff Mobility for Training) to ltir@ucsyd.dk. Sonic College will return it signed.
