

# Erasmus Staff Training Week 2026

## Sound Practices and Emerging Technologies

17–19 November 2026 · Sonic College, UC SYD · Kolding, Denmark  
Language: English

### Tuesday 17 November

Immersive Audio Across Media and Live Experiences

12:30 — Lunch and welcome

Lunch hosted by Sonic College, with time to meet colleagues from other institutions.

Afternoon — New technologies and professional exchange

In a dedicated workshop room, technology partners will present new technologies and developments in immersive audio across live sound, games, film and music. Presentations and discussion will explore their relevance to creative production, teaching and technical practice. There will be time for questions, exchange of experiences and informal conversations. Specific contributors and session details will be announced with the detailed programme.

Evening — Immersive screenings, concerts and playthroughs

Participants will have the opportunity to experience games, film and music in immersive formats through screenings, concerts and game playthroughs as part of the Sonic Days evening programme.

### Wednesday 18 and Thursday 19 November

Workshops at Sonic Days

Participants select relevant workshops according to their professional development needs. Expected areas include Foley, AI and other aspects of sound production and creative practice.

The detailed programme, including workshop descriptions and timings, will be available in early November 2026.

### Format and learning approach

A combination of workshops, peer exchange and individual learning paths. The programme supports development of professional sound practices and exchange between European sound and media education institutions.

This programme outline supports documentation of the planned training activities. Sonic College provides confirmation of participation for Erasmus+ purposes.

Participation is subject to approval by your home institution. Please send your completed Mobility Agreement (Staff Mobility for Training) to [ltir@ucsyd.dk](mailto:ltir@ucsyd.dk). Sonic College will return it signed.
