About Sonic Days 2026 Short Version

Dansk:

Sonic Days er en årlig lydkonference arrangeret af Sonic College lyddesign uddannelsen i Kolding. Konferencen samler førende eksperter, kreative professionelle og lydteknikere fra hele verden for at udforske nye grænser inden for lydteknologi, kreativitet og lydfortælling. Sonic Days er en platform, hvor både professionelle og studerende kan mødes, dele viden og inspireres af hinandens erfaringer. Med spor, der dækker alt fra film- og tv-lyd til spil- og musikproduktion, er Sonic Days en unik mulighed for at dykke ned i fremtidens lydlandskaber og teknologier. Konferencen er gratis og for alle, der brænder for lyd.

English:

Sonic Days is an annual audio conference organized by Sounddesigner education Sonic College in Kolding. The event brings together leading experts, creative professionals, and audio engineers from around the world to explore new boundaries in sound technology, creativity, and storytelling. Sonic Days serves as a platform where professionals and students can connect, share knowledge, and inspire each other. With tracks covering film and TV sound, game audio, and music production, Sonic Days offers a unique opportunity to dive into the future of sound and technology. The conference is free and for anyone passionate about sound.

Long Version Dansk:

Sonic Days er en international lydkonference, der årligt afholdes af lyddesigner uddannelsen Sonic College i Kolding. Konferencen samler nogle af de mest innovative og erfarne stemmer inden for lydindustrien, herunder lyddesignere, kreative professionelle og lydteknikere. Sonic Days tilbyder en platform for at fremvise de nyeste teknologier, kreative metoder og fremtidens muligheder inden for lydproduktion, kreativitet og lydfortælling.

Konferencen er opdelt i flere spor, der dækker specifikke emner som film- og tv-lyd, spil- og interaktiv lyd, musikproduktion, podcast og lydteknologi. Dette giver deltagerne mulighed for at fordybe sig i deres interesseområder, mens de også kan udforske nye felter og få indsigt i fremtidige anvendelser af lyd. Sonic Days henvender sig til både studerende og professionelle fra hele verden, der mødes for at dele erfaringer og skabe netværk på tværs af branchen.

Formålet med Sonic Days er både at uddanne og inspirere. Ved at skabe et forum, hvor teknologi møder kreativitet, håber vi at drive udviklingen inden for lydproduktion og fortælling fremad. Deltagerne kan opleve hands-on demonstrationer, workshops, paneldebatter og præsentationer fra

nogle af verdens førende eksperter inden for lyd. Det er gratis at deltage og Sonic Days er for alle, der ønsker at blive inspireret, få nye værktøjer til deres arbejde og møde ligesindede lydentusiaster.

English:

Sonic Days is an international audio conference hosted annually by Sonic College in Kolding, Denmark. The event brings together some of the most innovative and experienced voices in the audio industry, including sound designers, creative professionals, and audio engineers. Sonic Days offers a platform to showcase the latest technologies, creative methods, and future possibilities in sound production, creativity, and storytelling.

The conference is divided into several tracks covering specific topics such as film and TV sound, game and interactive audio, music production, podcast and sound technology. This structure allows participants to dive deeply into their areas of interest while also exploring new fields and gaining insight into future sound applications. Sonic Days welcomes both students and professionals from around the world to share experiences and build connections across the industry. The aim of Sonic Days is both to educate and inspire. By creating a forum where technology meets creativity, we hope to drive forward the development of sound production and storytelling. Participants can expect hands-on demonstrations, workshops, panel discussions, and presentations from leading experts in the field. It is free to participate and Sonic Days is for everyone looking to be inspired, gain new tools for their work, and connect with fellow audio enthusiasts.
